SUMMARY

Forward-thinking 3rd-year B.Tech student at KL University, specializing in Artificial Intelligence and Data Science with a stellar 9.7 CGPA. Proficient in Python, Front-End Developer, with active participation in hackathons. Skilled in AWS Cloud and certified as an AWS Cloud Practitioner and IBM Python Developer. Passionate about Data Structures and Algorithms (DSA), continuously learning, and eager to contribute to innovative projects. Check out my projects on GitHub.

PROJECT(S)

Websico Website: Django | SQL light | HTML&CSS | JS

Collaborated with a team to develop Websico, the official website for our student-led web development club. Built using Django, HTML, CSS, and JavaScript, the site features dynamic content, club activities, and a modern, responsive design to engage and inform visitors.

- Link of website: [Websico](#)

Personal Portfolio: HTML & CSS | JS

Designed and developed a fully responsive personal portfolio website using HTML, CSS, and minimal JavaScript. The site highlights my projects, certifications, and professional journey in a visually appealing manner. It includes an 'About Me' section and a functional 'Contact Me' form, offering an intuitive user experience across all devices
